We are where your target group is!

www.feuerwehrmagazin.de
For **VOLUNTEER FIRE FIGHTERS ONLINE** is the primary information source.

**FACEBOOK** is the first choice for the entire **TARGET GROUP**. This is proven by reach, engagement and other metrics.

Professional fire fighters use print and online **equally**.

63% of full-time fire fighters (professional and factory fire brigades) play at least an important role in the decision-making regarding equipment and vehicle purchases.*

47% of fire fighters finance their personal protective equipment (PPE) privately. And pay an amount of up to 100€ per year.**

Today, anyone who wants to catch the customer’s attention needs a mix of editorial content and advertising or brand messages, in a nutshell: Native Advertising!

How does Native Advertising work?
Native Advertising is storytelling. Your advertising or brand message is published in our platforms’ editorial environment by means of an editorial plot (story). Or your company (offer) is an integrated element of an editorial topic, without directly engaging in direct product advertising. Native Advertising sustainably supports you in building and extending your company’s and your products’ leading position in your relevant target groups.

What does Native Advertising achieve at Feuerwehr-Magazin [Firefighting Magazine]?
- Your content receives high attention and involvement from our community due to the high credibility and reach of our media brand(s)
- Publication of your content within the look & feel of our editorial environment. We are happy to handle the content creation for you
- Leads to longer time spent on the site and higher involvement with your brand as well as your message and creates long-term effects
- The only way to reach your target group across all relevant communication channels (print, online, social media) and avoiding ad blockers in the process
- Helps to reach your company’s and products’ whole target group by creating a larger audience for your topic
- Allows for customised communication to the target group, which is relevant for you, due to clear persona definition and positioning of Feuerwehr-Magazin [Firefighting Magazine]
- Supports your company in establishing itself as an opinion leader for your target group on the relevant topics
- Improves the visibility of your brand in search engines and social media channels using SEO optimised multimedia storytelling (editorial, images, graphics, video)

Content is king and we are the topic champions
We are the content specialists for our target group and know exactly which topics our community is interested in. Simply leave the storytelling of your message to us. We will make sure that your topics reach our community effectively.

We will take over the campaign conception, the content creation, the multichannel publishing, the campaign management and the reporting. A one-stop full service – from your target group’s content specialists.
